**DETAILED ACTION**

1. Claims 1-15 are presented for examination.

***Election/Restrictions***

2. Applicant is advised that the reply to this requirement, in order to be complete, must include an election of the invention to be examined, even though the requirement may be traversed (37 CFR 1.143).

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

4. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-2 and 8-13 and 15, drawn towards a method of computer visualizing an assembly process, classified in class 700, subclass 95.
  - II. Claims 3-7 and 14, drawn towards a program for simulating an assembly process, classified in class 703, subclass 13.

Art Unit: 2121

5. The inventions are distinct, each from each other because of the following reasons: Inventions I and II are entirely different inventions. See MPEP 806.05(d).

6. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classifications, restriction for examination purposes as indicated is proper.

7. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, and vice versa, restriction for examination purposes as indicated is proper.
